

Blue Marsh Lake Shoreline Rehabilitation
2022 NFHP Bass Pro Grant

Figure 1: Shoreline erosion from wave and wake action at the Dry Brooks Day Use Area. The area is popular swimming and picnic area and is highly used by the public and mooring boaters.

Figure 2: BCCD is part of a collaborative with the USACOE and PFBC. A 2022 NFHP Bass Pro Grant was awarded to the collaborative, and the grant funded assisted in the installation of rock framed deflectors along the shoreline. Flat stone was donated by the County to be utilized steps for water access for fishing, swimming, and boating. An education kiosk will be installed highlighting improvements and partnerships.

Figure 3-5: Old Church Road Access - Stone Framed Deflectors with an improved kayak and small craft boat slip. The lake is beginning to fill to summer pool elevation.
