Description ⓘ
The Local Conservation District is holding a tour of three stream restoration projects in Local County along Piney Creek. Projects took place at stream sites that run through three local farms: Fearless Farms, Dreamland Dairy, and Outstanding Opalards. In total, over 1,000 yards of streambank along Piney Creek were restored. Two years in the making, these projects are a win-win for the farmers and downstream communities.

Each farm will benefit from reduced streambank erosion that was slowly eating away valuable pasture. Downstream neighbors will enjoy cleaner water and reduced flooding downstream of the restoration site.
