

RIPARIAN FOREST WEBINAR SERIES

March 30 - April 3
from 12 - 1 pm

Email c-kelmille@pa.gov to
sign-up!

MONDAY
3/30

TBD

TUESDAY
3/31

Do Hellbenders, Freshwater Mussels, and Native Brook Trout Matter?

Eric Chapman, Western Pennsylvania Conservancy

Planting riparian forest buffers can benefit several important aquatic species. Using a top-down approach to planting, you can plan a buffer that yields the highest return on conservation investment.

WEDNESDAY
4/1

Selling Buffers WITHOUT Financial Incentives

Ryan Davis, Alliance for the Chesapeake Bay

For decades, many thought the only way to plant riparian forest buffers was with rental payments. Join Ryan to hear his tips, tricks, and insight to getting more trees in the ground without financial incentives.

THURSDAY
4/2

Reforestation Shallowbrook School

Jodi Sulpizio, Penn State Extension

With partnership and passion, Northeastern School District is leading the way to reforest its riparian and lawn areas. Learn about reforestation efforts and how to best replicate this grassroots effort across the state.

FRIDAY
4/3

TBD
