

2020 Version--:30 Conservation Tips PSA

Every day, Pennsylvania's sixty-six conservation districts work to prevent pollution in Pennsylvania. But we can't do this alone.

By taking a few simple steps, we can all make a difference.

Plant native plants because they:

- Need less water; and
- Attract pollinators;

If you have a stream near your property:

- Plant native plants along the stream to help prevent water pollution and flooding; and
- Never mow grass near a stream.
